

Policy Statement

We at Petrogas Gas-systems B.V. recognize the importance of assuring the highest Standards of Quality, in everything we do. Our Management and employees are committed to meeting and exceeding the requirements and expectations of our clients.

The Petrogas Gas-systems QMS is designed to give our clients top quality products and services, on time, within the budget and safely. Our QMS is founded on the basis of the continuous improvement principle, through auditing and incorporating the lessons learned.

To achieve our goals, we promote:

- ✓ Constant and continuous excellence in management, professionalism and in developing good working relations with our clients.
- ✓ Safety first, on all elements of our processes
- ✓ Delivery of uncompromising engineering of the highest quality.
- ✓ Prevent pollution, reduce waste and minimize the consumption of resources through implementation and certification of effective management system , compliant with ISO 14001
- ✓ Compliance with relevant national and/or international codes and standards of quality.
- ✓ Sustained quality performance through implementation and certification of effective Quality Management Systems, compliant with ISO 9001-2008
- ✓ A Quality Management Culture in accordance with the following principles:
 - Meeting client requirements and expectations.
 - Reinforcing the shared responsibility of every Petrogas manager and employee, to achieve our quality commitments.
 - Promoting harmonious relations, team work and mutual trust to ensure an environment that fosters excellence and professionalism in all activities.
 - Continuously auditing, measuring, evaluating and validating improvement and effectiveness, both internally and externally.
 - Ensuring top quality engineering know-how, cross discipline design capabilities and high quality project execution.

Petrogas gas-systems management considers quality as a corner stone in its development, profitability and growth and the key to the long term success of our Company.

Chris van der Ree
